HCT-201709-01

## CPSC may vote for updating CPSIA phthalate requirement in October

Earlier in 17 December 2014, Consumer Product Safety Commission had voted and passed the proposed rule for the "Prohibition of Children's Toys and Child Care Articles Containing Specified Phthalates", intended to delete current restricted DNOP & DIDP, and add 4 more phthalates (DIBP, DPP, DnHP and DCHP) in the permanently banned list of CPSIA. (For details please refer to HCT previous newsletter: [HCT-201501-03 CPSIA phthalates control may be added to 8 items](#))

But the proposal has been delayed, early in this year, the non-governmental organization has sued the CPSC for failing to respond to the proposal for more than two years. Currently, CPSC has agreed to finalize the final rule as soon as possible and to vote by 18 October

Normal phthalates restriction as below:

	DEHP	DBP	BBP	DINP	DIDP	DNOP	DIBP	DPP	DnHP	DCHP
Currently CPSIA requirements	√	√	√	√	√	√				
Proposal CPSIA requirements	√	√	√	√			√	√	√	√
REACH ANNEX XVII requirements	√	√	√	√	√	√				
Canada Phthalates Regulations requirements	√	√	√	√	√	√				
Consumer Protection Notice No. 11 of 2011(AU) requirements	√									
California AB 1108 requirements	√	√	√	√	√	√				
CA 65 requirements	√	√	√	√	√				√	

### HCT Solutions:

- Related enterprises should pay attention to the update news, and get well prepare for the update restrictions
- If this proposal comes into effect, toys export to US. & EU. may have to meet 10 phthalates requirements
- **HCT has CNAS certification to test phthalates, could provide phthalate related test to enterprises, for any query please call us**
