

TOYS SAFETY

HCT-201911-04

## EU amended aluminium limit to the safety of toys directive

19 November 2019, EU published the Directive (EU) 2019/1922, amending the Annex II to Directive 2009/48/EC, as regards aluminium.

Detailed as below:

Material category	Previous aluminium limit (mg/kg)	New aluminium limit (mg/kg)	Material category examples
Category I Dry, brittle, powder-like or pliable toy material	5625	<b>2250</b>	Chalk, crayons, etc.
Category II Liquid or sticky toy material	1406	<b>560</b>	Bubble water, finger paint, etc.
Category III Scraped-off toy material	70000	<b>28130</b>	Ceramics, glass, metals and alloys, textiles, surface coating, etc.

Member States shall adopt and publish, by 19 May 2021 at the latest, the laws, regulations and administrative provisions necessary to comply with this Directive.

### HCT SOLUTIONS:

HCT could provide various services to enterprises to ensure the products are compliant with the EU toys safety directive, including but not limited to provide test report, environmental training etc. If need further information or need to test, please contact with us.

Example of category I

Example of category II

Example of category III
